Dr. William Stixrud and Ned Johnson The Self-Driven Child

A few years ago, clinical neuropsychologist William Stixrud, Ph.D. and teen motivational coach Ned Johnson started noticing the same problem from different angles: Even high-performing kids were coming to them acutely stressed and lacking motivation.

They co-authored a book, **The Self-Driven Child**, combining cutting-edge brain science, the latest discoveries in behavioral therapy, and case studies drawn from thousands of kids and teens.

In this presentation, they will discuss today's common stressors and describe compassionate, concrete solutions to help children of all ages move from feelings of powerlessness to purpose, ready to take on new challenges on the *real* road to success.
